Policy Document No. 8

ENVIRONMENT POLICY

The Village Hall Committee recognises that it impacts on the environment through its routine activities, its building management and through its influence and effects on the wider community.

The committee also acknowledges a responsibility for, and a commitment to, the protection of the environment at all levels.

It will fully comply with environmental legislation and will:

- Promote environmental management policies and practices at every level e.g. heat efficiency, water saving (energy/toilets/recycling).
- Promote awareness of environmental responsibilities among committee members and hall users.
- Minimise waste and pollution and develop and operate environmentally sound waste management procedures.
- Reduce consumption of fossil fuels and incorporate long term strategies for energy efficiency within planning and development.
- Encourage the use of modes of transport by committee members and users which minimise environmental impacts.
- Promote a purchasing policy which will give preference, as far as practicable, to those products and services which cause least harm to the environment.
- Avoid wherever practical the use of environmentally damaging substances, materials and processes.
- Maintain the grounds, gardens and buildings of the village hall in an environmentally sensitive way having regard to local wildlife and the preservation of biological diversity.

Progress in implementing this policy will be renewed annually by Topcliffe & Asenby Village Hall Committee.
